

MARUMI

Super DHG Filters

Essential Characteristics of Super DHG Filters

Grade	Type	Number of coats			Transmission (%)	Thickness of Rim			
		Anti-Reflection	Water&Oil Repellent	Total Layers					
Super DHG	Lens Protect	10	2	12	99.0%	49~58mm	6.3t	62~82mm	6.5t
Super DHG	UV (L390)	10	2	12	98.4%	"	"	"	"
Super DHG	C-PL	10	2	12	32~34%	49~82mm	7.0t		

Transmission rates are measured at 420-680nm.

Super DHG UV L390

A digital generation lens protect filter that absorbs ultraviolet rays that make outdoor photographs hazy and can serve as a permanent lens protector. Featuring digital super coating with more benefits:

- Hard Protection - Protect lens surface from scratches even with heavy duty use.
- Water & Oil Repellent - Water and oil spots simply just wipe off.
- Antifouling - Keeps lens surface free of any dust or dirt.

Size	Item Number
49mm	AMDSUV49
52mm	AMDSUV52
55mm	AMDSUV55
58mm	AMDSUV58
62mm	AMDSUV62
67mm	AMDSUV67
72mm	AMDSUV72
77mm	AMDSUV77
82mm	AMDSUV82
86mm	AMDSUV86
95mm	AMDSUV95
105mm	AMDSUV105

Super DHG Lens Protect

A digital generation lens protect filter.

Featuring digital super coating with more benefits:

- Hard Protection - Protect lens surface from scratches even with heavy duty use.
- Water & Oil Repellent - Water and oil spots simply just wipe off.
- Antifouling - Keeps lens surface free of any dust or dirt.

Super DHG Circular Polarizer

The Super DHG Circular Polarizer allows you to eliminate unwanted reflection from water, glass etc. It also helps saturate colors and increase contrast. The Super DHG PL is often used to enhance blue skies and white clouds. The thin frame allows it to be used with wide angle lenses. Front threads accept a lens cap.

- Proprietary ultra-low reflection coating increases light transmission.
- Lens' outer rim is blackened to minimize internal reflection.
- Satin smooth, ultra thin, matte-black metal filter frame further minimizes reflection.
