Argraph Introduces Sirui Multi-Function Photo/Video Monopods with Fold-Down Feet

Argraph Corporation, the international distributor of photographic/imaging products is introducing two new pro-level photo/video monopods.

The **Sirui P-324X and P-424X Photo/Video Monopods** have three sturdy fold-down support feet that provide the stability of a tripod with the convenience of a monopod! The rugged feet can be stepped on, to prevent the monopod from moving, allowing you to creatively pan the monopod **360°** and tilt up to **15°** in any direction. This is possible thanks to the extremely smooth and adjustable ball head base located on the bottom of the monopod leg.

When not needed, the support feet fold flush and lock in place against the monopod leg, allowing it to be used as a conventional monopod. The large, slip-free rubber foot lets you work on any surface.

The **Sirui P-324X and 424X** are equally at home with photo and video equipment. The lightweight 8-layer Carbon Fiber monopods are easy to carry (weigh as little as 2.6lb), but can **hold up to 33lbs!** And the maximum height of 6.3 feet (plus the height of the camera) lets you get above the crowd.

The **Sirui P-324X and 424X** come with a custom padded case and shoulder strap. For added flexibility and fast connect/disconnect, you can add the Sirui Video VH-90 Quick Release Platform.

Sirui Tripods are distributed in the U.S exclusively by **Argraph Corporation** and are available from photo retailers nationwide. As with all Sirui products, the new **P-324X/424X** series comes with a 6-year warranty. For more details, please visit www.Argraph.com or call us at 201.939.7722.

About Argraph:

Argraph Corporation and its subsidiaries are leading manufacturers and distributors of photographic and imaging products since 1953. Headquartered in Carlstadt, NJ, Argraph offers unique and innovative products through retailers across the country, and around the world. Additional information is available at www.argraph.com.

About Sirui:

SIRUI Photographic Equipment Industry Co., Ltd, founded in 2001, has quickly become one of the leading manufacturers of photographic equipment. Located in Zhongshan, in the southern part of the Pearl River Delta, they specialize in the manufacture of professional tripods, monopods, ball heads and related accessories. By continuously investing in advanced tooling, innovative technologies and precision machinery - in concert with a highly trained design and engineering team - SIRUI is able to produce high quality products from design concept to parts manufacture to final assembly.
