The ONE Charger for Your Devices! **Argraph's New PIXO[®] C4 Universal Quick Charger** **Helps Unclutter Your Desk and Simplify Your Life**

Whether you're at home, in a dorm, a hotel, your car, or abroad you always need multiple battery chargers.

One for your phone.

One for your iPad[®].

One for your camera.

One for the Bluetooth for your phone.

One for AA and AAA batteries.

And one for some device we can't even think of.

The German engineered PIXO[®] C4 Universal Quick Charger is the **ONE** charger you need for **ALL** these devices. Currently introduced in the U.S. by **Argraph Corporation**, the international distributor of photographic/imaging products, the **PIXO[®] C4 Universal Quick Charger** helps you unclutter your desk and simplify your life.

The **PIXO[®] C4 charger** has **two USB ports** to charge smartphones, including the iPhone[®], as well as the iPod[®] and iPad[®], via a Micro-USB and Mini-USB cable. **Any two of these devices** can be charged through the USB ports **at the same time**. The USB ports have an output of 5 volts and 2000 mA. At the same time you can charge up to **four AA or AAA NiMH or NiCad batteries** in pairs or charge **one 3.4 - 4.2 Volt or 6.8 - 8.4 Volt Lithium-Ion or Lithium-Polymer Battery Pack**.

The **PIXO[®] C4 Universal Quick Charger** features a **Battery Activator Function** to revive deeply discharged Lithium-Ion batteries that would otherwise be unusable. The charging status is displayed via one red and three green LED's.

Silver Plated 3D-Flex Contacts slide to the correct position to accommodate nearly all Lithium-Ion or Lithium-Polymer battery packs. The **PIXO[®] C4** charging contacts are easily adjusted from the side of the unit to conform to multiple battery contact configurations. The charger **automatically detects the polarity and voltage** of the battery **so there are no mistakes**.

German Engineered – Unique Innovative Features

- Charges up to 4 (2 + 2) NiMH/NiCd AA / AAA.
- 2 x USB charge output 5 Volt/2000 mA – iPad[®], iPhone[®], iPod[®] and smart phone ready.
- Charges virtually all 3.4-4.2 Volt + 6.8-8.4 Volt Lithium-Ion/Lithium-Polymer Battery Packs.
- Automatic polarity and voltage detection for Lithium-Ion batteries.
- Silver Plated 3D-Flex contacts make charging fast and efficient.
- Battery Activator Function to revive deep discharged Lithium-Ion batteries.
- Charge time 1-4 hours. Charge current 800 mA.
- Includes base unit (5 ¼" x 3 ¼" x 1"), 100-240 Volt power supply, 12 Volt car adapter, USB charge cable with Micro-USB and Mini-USB adapters.

The PIXO C4[®] Universal Quick Charger has an expected street price of approximately \$49.95

Review samples are available to qualified reporters and editors upon request.
