Argraph Introduces the SIRUI R-X Series Professional Photo/Video Tripods: 2 Tripods in 1!

SIRUI, leading manufacturer of professional tripods and support equipment, is introducing the new **SIRUI R-X Series Professional Photo/Video tripods**. Building on the impressive performance of the renowned SIRUI R3/R4 Series tripod line, the rugged SIRUI R-X Series Photo/Video tripods are the **tallest, strongest and most stable** models SIRUI has ever manufactured.

Today's photographers need to shoot both still images and videos. Instead of carrying two tripods, the **versatile SIRUI R-X Series Photo/Video tripod can handle both jobs easily**. It's actually "2 tripods in 1!"

[Click here to watch video demonstrating the SIRUI R-X Professional Photo/Video Tripod](#)

The flat platform allows you to attach a **SIRUI K-40X Professional Ball Head** or a **SIRUI PH-20 Gimbal Head** for shooting with super telephoto lenses.

And when you need to shoot high quality videos, the flat platform can be replaced with **the included 75mm bowl** for use with **SIRUI Professional Fluid Video Heads**.

The **re-engineered spider, the heart of any tripod**, provides **increased stability and load capacity**. And the anodized, forged aircraft grade components insure maximum strength and long life.

The **10 layers of 100% Carbon Fiber**, combined with a new cross pattern structure, **provide significantly increased strength, stability and vibration reduction** – while offering a surprisingly lightweight tripod (the 6.6 foot tall R-5214XL weighs only 6.2 lbs.!).

The new full-sized **Pull-Out Leg Angle Locking System** makes selecting one of the three leg angle positions fast and reliable. And for added speed and convenience, each leg has an automatic leg angle lock mechanism.

The **3-point platform locking system adds stability and greater locking integrity**, the built-in bubble level makes horizontal alignment fast and easy and the rubber feet can be replaced with stainless steel spikes for use on any terrain.

SIRUI R-X Series Photo/Video tripods are designed for both photographers and videographers – even when they're the same person!

As with all Sirui products the new R-X Series comes with a 6-year warranty. For more information on the SIRUI R-X Series Photo/Video tripods please visit argraph.com or call us at 201.939.7722.

Sirui Products are distributed in the U.S exclusively by **Argraph Corporation** and are available from retailers nationwide.

About Argraph:

Argraph Corporation and its subsidiaries are leading manufacturers and distributors of photographic and imaging products since 1953. Headquartered in Carlstadt, NJ, Argraph offers unique and innovative products through retailers across the country, and around the world. Additional information is available at www.argraph.com.

About Sirui:

SIRUI Photographic Equipment Industry Co., Ltd, founded in 2001, has quickly become one of the leading manufacturers of photographic equipment. Located in Zhongshan, in the southern part of the Pearl River Delta, they specialize in the manufacture of professional tripods, monopods, ball heads and related accessories. By continuously investing in advanced tooling, innovative technologies and precision machinery - in concert with a highly trained design and engineering team - SIRUI is able to produce high quality products from design concept to parts manufacture to final assembly.
