SIRUI BCT SERIES BROADCAST VIDEO TRIPODS

**BCT
Series**

Broadcast Video Tripods

To make sure you get the maximum performance from your video head, you need to have a solid, versatile video tripod. The SIRUI BCT series of tripods perfectly match the SIRUI BCH video heads.

Forged aircraft grade aluminum alloy makes the mounting platform and leg mount assemblies very strong, long lasting and lightweight. The multi-tube legs are extremely stable and the design reduces vibrations. And for enhanced vibration reduction and reduced weight, the 10 layer 100% carbon fiber legs are the best choice. Fast setup and breakdown is very important. That's why the leg locks are oversized and easy to adjust - even when wearing gloves.

All SIRUI BCT tripods come with a ground spreader for flat surfaces and a center spreader for rough, uneven terrain. The dual metal spikes dig into the grass or dirt and the rubber platform feet are perfect for wooden or stone surfaces.

SIRUI BCT tripods are available with 75mm or 100mm bowls that accept today's most popular video heads.

Features

1. Multi-tube design provides increased stability and vibration reduction.
2. Precision built aluminum spiders are lightweight, yet offer superior load capacity.
3. Oversized leg locks provide fast, easy adjustments - even when working with gloves.
4. Also available with economical, high performance Aluminum alloy legs.
5. Includes adjustable ground and center spreader, dual stainless steel spikes for use outdoors and rubber feet for use on stone or wooden surfaces.
6. Sirui Professional BCT-2003 & BCT-2203 has 75mm bowl.
7. Sirui Professional BCT-3002, BCT-3202, BCT-3003 & BCT-3203 has 100mm bowl.
